Introduction

Greetings *Manhunter*. Are those Orbs getting you down? Are you lost in New York with no place to go? Cheer up! With this handy little book you'll be covering new ground in no time - but first, some background.

As you make your way through *Manhunter: New York*, you will learn what the evil orbs are up to, discover secrets of the underground human movement and find yourself on the trail of a deadly killer. To make progress in *Manhunter*, you will do, use, or find things at various locations. Sometimes the solution is obvious - you would naturally use a crowbar to open a stuck window. Other solutions have clues in other parts of the city. Keep your eyes open. Search each location by moving your marker over every object that you see. If you get stumped, travel to the other locations in the city. The clue you need may be across town.

There is no score in *Manhunter*. If you make it to the end of the game, you've won. This hint book will get you through to the end. If you have a problem that isn't covered here, feel free to contact Sierra's 24-Hour hint line at (209) 683-6858.

How to use a hint book

If you reach a point where you can't go any further, look through this book and find the day that you are in and your location. Use your Adventure Window card by placing the red window over the patterned area to read your desired answer. Hints progress from mildly helpful to a direct answer. It's best to read them individually, and in sequence. Be sure to read only those hints you really need.

How not to use this hint book

The Orbs will not like it if you just scan through the book reading all the answers! You will lose a lot of enjoyment (and sleepless nights) in discovering the game. Read only those hints which are absolutely necessary, and as few of those as you can.

If you have finished *Manhunter*

After you have "won" the game, we invite you to check out the back of this book. It contains more interesting information. But be very cautious using this section! Don't even look at it until you have actually seen the end of *Manhunter*.

Thank you for purchasing *Manhunter* and this book. If you like this kind of game, let us know. Remember, the Orbs are watching you!

You should follow the target's trail by traveling to the locations that your target visited.

Position the marker over the cadaver's toe.

Position the marker over the cadaver's face.

You can't go outside again and I am not going back inside. What do I do now?

You could select MAD from inventory (or press C). Select Info and type in the name of the cadaver.

The candles have a secret that you will be able to solve later when you have more clues. For now though, go back outside and then travel to the next location that the target went to.

I am standing in front of the Flatbush Bar in Brooklyn. What do I do now?

Position the markers near the door and press **REENTER**. Then go up the stairs to the top floor. See the act.

I am inside the bar, now what?

Find the stool or chair. Press **REENTER** while sitting down.

There is a big bartender dude staring at me and I have a knife. What now?

Press **REENTER** to press him. Then it is time to use **WINNING** tactic.

The player is equipped with knife. In each corner there is a wood cabinet. A book or glass should be the hand held.

OK, I won now what is going on?

This is clearly a trap you can't catch.

You have won the game now and can close the door again without interruption.

There is something you should do now. Can you figure out what it is?

Remember the secret code that the bartender gave you after the knife contest in the bar?

Flush three times.

Now I need to be lost in the sewer! That's right!

What you need is a map.

You've seen the map to the sewer already, why don't you use it?

I've been in the sewer system since I was born. I've seen it all. From the sewage plant to the water tower and the city's main water source. I've seen it all. And now I'm here, looking for answers. I have a keycard from the sewer system. It's the only one I have. I'm trying to find my way out of the sewer and I've got 12 keycards. What do I do now?

I found my way out of the sewer and I've got 12 keycards. What do I do now?

1. Go to the ticket booth and buy a ticket.

2. Go to the ticket booth and buy a ticket.

What is this, some kind of medal?

A medal.

Where do I go from here?

I don't know where to go. I'm lost.

I'm lost and I'm scared. I'm scared of what's waiting for me.

The huckster keeps looking at me after I knock over the secret combination. What is that about?

Coney Island

I am at Coney Island, what do I do here?

There are many fun things you can do here. You can ride roller coasters and bumper boats. You can eat at the food stands and buy souvenirs.

So I have played all the booth games, what do I do next?

There are many fun things you can do here. You can ride roller coasters and bumper boats. You can eat at the food stands and buy souvenirs.

The video game maze that you saw back at the Flatbush Bar is the map to the sewer maze! You start in the same spot as the man in the maze game starts. Before you find your way to the end, go to each area in the maze where there is a magic square. At each magic square location you will find a keycard. You should have 12 keycards when you get to the end of the maze.

I found my way out of the tunnel and I'm going to the beach. What do I do now?

What is that shiny thing on the dock?

Position the marker over the shiny thing on the dock. When it becomes a magnifying glass, press **◀ENTER▶**.

What is this shiny thing?

It is called a medallion. Position the marker over it and press **◀ENTER▶** to take it.

The ferris wheel that you see in the distance is at Coney Island. Travel to Coney Island.

Coney Island

I am at Coney Island, what do I do here?

There is only one place you can go here. Can you find it?

Position your marker over the booths on the left. When the marker changes, press **◀ENTER▶**.

Did I hear about all the beach games. What do I do next?

There is definitely something you should do here!

Don't those kewpie dolls look familiar?

Remember the instructions to the video game in the bar, "the correct path leads you to the kewpie dolls..."

When you take the shortest path to the end of the maze in the video game, you will pass over three magic squares that will trigger three balls to be thrown that will knock over three kewpie dolls. Knock over the same three kewpie dolls in the same order.

Knock over the third doll on the top shelf. Then the second doll on the second shelf and finally the fourth doll on the bottom shelf.

Show him what he wants to see!

If you show him the medallion, he will know that you are on his side and give you a data card.

Day 2

I've watched the tracker for day two, what now?

Position your marker over the blue target and press **MENU/SELECT**.

Grand Central Terminal

Here I am at Grand Central, what do I do?

Position your marker over the activity at the bottom left and the color and press **MENU/SELECT**.

Check out the activity and then move to the next guess your target from the Wretched Excess in Government Village.

Wretched Excess

I'm trying to get inside but the blue dude won't let me!

First position your marker over the tree (just to the left) and press **MENU/SELECT**. Open MAG (press F1), select and hold **B** (you will have to press **SELECT** first and then press **C**) (use **RIGHT/LEFT**).

You will have an additional way to get inside.

Position your marker over the tree and press **MENU/SELECT**.

Exponentially better (blue guy is now).

I've made it past the first three punks but the fourth one gets me every time. What do I do?

Watch this game closely. Whenever the leader is gone, go **RIGHT/SELECT** to pass it, then **DOWN**. When you see **WALK/SELECT**, press **DOWN** so that if you do get killed, you don't die because there's no teleporting.

I'm inside now but I don't know what to do.

Press **UP** to top the shoulder of the blue guy (blue being followed). Be careful though, his staff (the audience) can hit the glass and stop application of the blue feather until...

What you do is **RIGHT** you are tracking? Click should be held by side and if you can't figure it out, it'll tell you.

The members of the audience at the Wretched Excess are watching their designated colors. The target you are viewing (the suit) has to turn off his friends in this after breaking him (Grand Central Terminal). If you still can't figure it out, look at the red audience and we will spell it out for you!

The target is wearing the **GREEN** color. Get ready to grab the feather that she drops.

I am outside the Wretched Excess again, what do I do now?

You should have it figured now. If you only have **A**, you have to walk and use the **UP** key.

If you have **A**, **B** backwards, open **MAG**, Select **Trades**, Tag the second target by pressing the **RIGHT** button (the middle finger) and press **MENU/SELECT**.

Travel to the first place your target was at (Grand Central).

Position your marker over the activity at the lower left of the screen and press **◀ENTER▶**.

Check out the activity and then travel to the next place your target went (the Wretched Excess in Greenwich Village).

First, position your marker over the blue dude to get his name. Open MAD (press C), select info and type in Louis Redman. Select Exit and then press C to close MAD.

You will have to find another way to get inside.

Position your marker over the alley and press **◀ENTER▶**.

Go forward but be alert, danger is near.

Watch his arm closely. Whenever he lowers it, jump up. Whenever he raises it, duck down. When you go forward, save your game so that if you do get killed, you don't have to start from the beginning.

You need to tap the shoulder of the target you have been following. Be careful though, the rest of the audience came for the music and won't appreciate it if you bother them!

Which one is the target you are tracking? Think about it for a minute and if you can't figure it out, I'll tell you.

The members of the audience at the Wretched Excess are wearing their designer robes. The target you are looking for just ran in here off the streets to hide after breaking into Grand Central Terminal. If you still can't figure it out, look at the next answer and we will spell it out for you!

The target is wearing the brown robe. Get ready to grab the keycard that she drops!

You should have 13 keycards now. If you only have 12, go back inside and get the last one.

If you have 13 keycards, open MAD. Select Tracker. Tag the second target by positioning your marker over the middle target and press **◀ENTER▶**.

Vend-o-Deli

What do I do at the deli?

I'm lost and you can see nothing outside. Which way did you come from?

It's simple, just go straight and follow the path to the left. You'll find your way.

Central Park

I keep dying at the park, what gives?

There's nothing else here besides the park.

Most of the park is too dangerous because of the many tall buildings. The most dangerous area is the bridge. You can't walk across it because there are many trees and bushes. You have to jump over them to get to the other side. This is why you keep dying.

If you die, you'll stay in the park until you're dead. You can't leave the park until you've beaten the game. So you have to survive the known areas. You can do this by jumping over the bushes and trees.

Go inside and look at the bulletin boards. Which note did your target leave?

You don't have enough clues yet to determine which note he left, but you will soon. Travel to Central Park.

There is only one safe path through the park.

Look at the tracker and outline their path on the map of Central Park that was enclosed with the game. Put an X at every spot that they stop at. Close the computer and use your map to find your way through the park.

If you still can't find your way through the park, use your Adventure Window card to locate the correct path. Be sure to take the crowbar when you find it.

I found another corpse, what should I do now?

What do you think is his first name?

The answer is on the data card. Select Data Card from Inventory.

Still stumped? I would say that the murderer is trouble.

Phil is trouble.

So Phil is the murderer's first name and his last name is Coo something.

We give you another clue to the murderer's last name right after you look at the sign at Strawberry Fields. Go back and look again.

Don't get your goose "cooked" ... The last name of the murderer is Coo...k! Phil Cook! Open MAD, select Info and type in Phil Cook. Then travel back to the Deli.

I traveled back to the deli but now what?

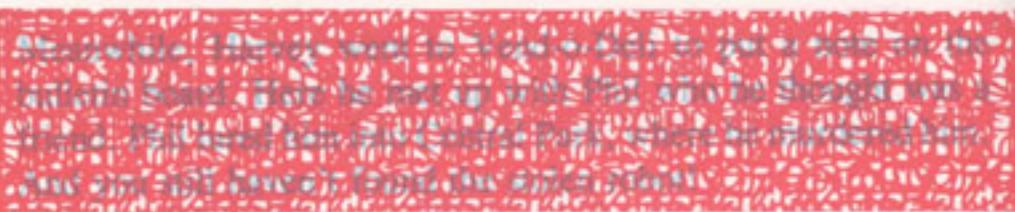

Go to the bulletin board that the suspect went to. If you forgot, use the tracker to replay that scene.

It was the bulletin board nearest the back wall. Go there and find the note that H. Osborne left.

It is the only note that is signed by a name starting with an H. (Harvey).

The dead man in the park is Harvey Osborne! Open MAD, select Info and type in Harvey Osborne. Select Repeat and type in Anna Osborne. Anna Osborne is Harvey's wife and the target you tracked on day 1.

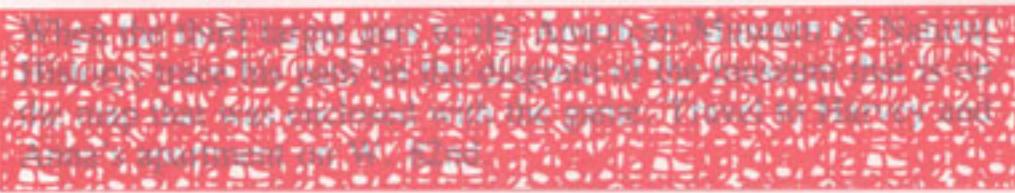

She is the one that set the bomb at the hospital to see what was going on inside. Then she hid something at Trinity Church. She went to the Flatbush bar to copy the maze. At the ladies room at Prospect Park, she used the three-flush code to get to the sewers and dropped the medallion on the dock before leaving in her boat. The next night, Anna, her husband Harvey and someone else broke into Grand Central to steal a maintenance robot. Then they split up and Anna went to the Wretched Excess to hide. That is when she knocked you out. Then she returned home (W. 82nd).

I am at the museum but how do I get in?

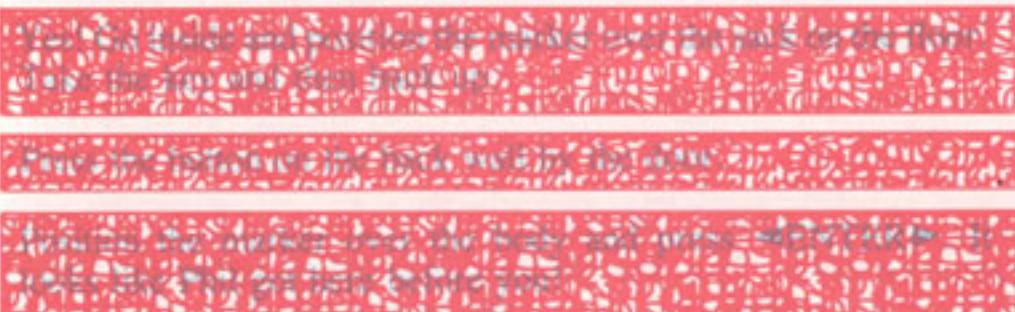

But the back doors are locked!

There are two main entrances, one on the left and one on the right. You can enter through either of them.

Meanwhile, Harvey went to Vend-o-Deli to put a note on the bulletin board. Here he met up with Phil who he thought was a friend. Phil lured him into Central Park, where he murdered him. And you still haven't found the stolen robot!

Open MAD and select Tracker. At Grand Central, tag the third target.

When the third target gets to the American Museum of Natural History, trace his path on the diagram of the museum that is on the map that was enclosed with the game. Travel to Harvey and Anna's apartment on W. 82nd.

Just as you caught up with him, he was taking the robot apart to get to the module and it blew up.

Look closely for clues.

The clues are on the tombstone that is at the end of the grave that the orb is planted on.

The clues are Tim Jones and that he is survived by his father. Tim Jones is not in info because he is deceased. Reno Davis was in info because the orbs didn't want you to know that Reno is deceased. Travel to Trinity Church.

Timothy Jones is survived by his father.

I am back at my church, it's time to go.

Go to the same candles that Anna went to on day 1.

Go to the candles on the left side.

Do I have to go through the office door?

Do I call at the cemetery and never work?

Remember the tattoo on the dead man in the museum?

Any, I've found an exact companion, what do I do now?

Press the first button again. Number 1 goes in the first slot.

Press the second button again. Number 2 goes in the second slot.

The answer is **2-1**.

There are three buttons in the combination.

I can't figure out the combination to the third picture!

There are three buttons in the combination.

Position the marker over the big picture on the left side of the back wall and press **◀ENTER▶**. Then press **◀ENTER▶** again for a close up of the cypher lock.

That's because you haven't seen that clue yet! Travel to Abdul's Pawn Shop.

It is dangerous but go inside anyway!

You need to select the right combination of badges to show Abdul that you are friendly.

Do any of the badges look familiar?

Pick the three badges that match the symbols on the door above the candles in the church (cross, star and horizontal lines).

Look at the sign above the door.

Look at the picture on the wall.

If you press the right combination of buttons, you will open the door. The answer is in the picture.

There are two numbers in this combination.

Sometimes it helps to stand on your head.

Look at the picture upside down. Look at the shadows.

The answer is 4-1. (The tree shadows spell out these numbers when you look at them upside down.)

There are four numbers in this combination.

You won't find the numbers hidden in the picture.

You don't count anything in the picture.

What holiday does the picture represent?

When is Halloween?

Halloween is on 10-31. The secret combination is 1031.

There are three numbers in this combination.

Then in other numbers I write down and then look at the second series.

Look at the sequence. The first seven points of the tail of the bone, the last arrow points to the right of the third. What's to the left and what's to the right of a nerve? Crosses.

The numbers in the middle? It's 1, 2, 3.

What's to the left?

I can't figure out the combination to the fourth picture!

Those are blank spaces in this combination.

Previous page is the key.

Look at the last page.

Cross the eyebrows on the dead body.

The answer is 120.

Should I go near the dead body?

RECOMMENDED

Assassins from the New York. Looks like Phil has been here just ahead of you.

Don't back up now. You know the corpse's first name.

Draw in the right.

RECOMMENDED

I've seen all I want to of this cadaver, where to now?

What do you think about the combination to the door?

Phil keeps murdering me. What am I doing wrong?

Watch his right hand. When he drops it, jump. When he raises it, drop. When he moves the metal basket, knock. Be careful. He moves with overconfidence since he's so off Phil seems to be calm. Note when you start a punch, when the appropriate moment, and then swing straight. Be patient and take your time, it's important.

I finally beat Phil! What is my next move?

Push in the hole to the left.

Two new funds of somewhere you might have gone to see this morning.

This is right. Click the opening in the ceiling above the jacket shop. Then travel to the theater on Times Square.

Theater in Times Square

Here I am at the theater again. What should I do?

If you forgot the number to the hotel, open M&D's logbook file 107 USE NOTES. Write down in remember list number and close Map.

Look at these numbers 1234567890 and then look at the picture again.

Look at the arrows. The first arrow points to the left of the three, the last arrow points to the right of the three. What is to the left and what is to the right of a three? (2 and 4.)

The math is in the middle. $3 + 3 = 6$.

The answer is 264.

I can't figure out the combination to the fourth picture.
I have tried all kinds of combinations.

There are three numbers in this combination.

The answer is in the vase.

Look at the dead twigs.

Count the branches on the dead twigs.

The answer is 425.

Of course!

Notice the P on his forehead. Looks like Phil has been here just ahead of you.

Don't back up until you know the corpse's first name.

Look at his lapel.

His name is Harry.

Go to the only place you can go, around the corner.

Watch his knife hand. When he drops it, jump. When he raises it, duck. When he moves to a neutral position, punch. A defensive move will override an offensive move so if Phil moves his knife hand after you start a punch, select the appropriate defensive move (jump or duck). Be patient and you will soon defeat him!

Pick up the note he dropped.

Can you think of somewhere you might be able to use this number?

That's right, click the opening in the ceiling above the ladder and then travel to the theater in Times Square.

If you forgot the number on the note, open MAD, select Info and type NOTES. Write down or remember that number and close MAD.

Get to the site and type in the code (BAGT269).

Take the lift in the safe. Turn to Hiltz across the Empire State Building.

The Empire State Building

I am in front of the Empire State Building. How do I get inside?

Push the button over the guard robot and say "RESCUE".

I'm in someone's office and don't know what to do.

Push the button over the computer on the table and click "RESCUE".

I'm in front of the computer but it doesn't seem to be working. What do I do?

Push it on.

Push the button over the guard robot and say "RESCUE".

I give up, what's the password?

You should be the one to type it.

The answer is 1234567890.

I have gained access to the computer but should I continue?

You probably shouldn't. Click on "Cancel". Push the guard robot over the Continue button and press "CONTINUE".

Alpha, Beta, Gamma and Delta are the passwords for the four sites you will visit. You can get information on these sites by clicking the appropriate boxes. Try to figure out the location of the four sites and to find changes that will help you stop them.

What are the four sites and what are the correct settings?

Alpha is Northern Hospital. This is where the CHS are trying to turn the hospital into a fake hospital. Assign the guard robot to "Scout" mode.

Beta is Grand Central Terminal. This is where the CHS are trying and repairing their spaceship fleet including the Brotherhood. Remember Hunter's note that he wrote after breaking into Grand Central? You can see the notes.

Gamma is The Gates of Liberty. This is where the CHS are separating the old and new that cause the CHS to work harder for the ones to break and makes human supplies and cash for the CHS to control. Assign the guard robot to "Guard" mode.

Delta is the Empire State Building. It houses the CHS Alliance. Plan & prepare.

OK, I am done using the computer, now what?

Select "Exit" and you back away from the computer and go back to the stairs. This ends your game!

Go to the safe and type in the code (843769).

Take the note in the safe. Travel to Phil's address (the Empire State Building).

Position the marker over the front door and press ◀ENTER▶.

Position the marker over the computer on the table and press ◀ENTER▶.

Turn it on.

Position the marker over the on/off switch and press ◀ENTER▶ to turn it on.

You found it in the safe in the theater.

The answer is UCUCC.

You probably shouldn't, but do it anyway! Position the marker over the Continue button and press ◀ENTER▶.

Alpha, Beta, Gamma and Delta are the code words for the four orb strongholds in the city. You can get information on these sites by clicking the appropriate boxes. Try to figure out the location of the four sites and to make changes that will help your quest.

Alpha is Bellevue Hospital. This is where the orbs are converting humans into a food source! Assign the guard robot hall security.

Beta is Grand Central Terminal. This is where the orbs are hiding and repairing their spaceship fleet including the Mothership. Remember Harvey's note that he wrote after breaking into Grand Central? "We saw the mother..."

Gamma is the Statue of Liberty. This is where the orbs are generating the red gas that colors the sky, makes it easier for the orbs to breath and makes humans sluggish and easier for the orbs to control. Assign the guard robot to Ground Patrol.

Delta is the Empire State Building. It houses the Orb Alliance's Main Computer.

Select Quit until you back away from the computer and are standing in the office. Then save your game!

Phil's Computer

What do I do with this Signal Tracking System?

Phil's Signal Tracking System can track your location and send it to the FBI. It also tracks other people who have ever been near you. If you're in the wrong place at the wrong time, it can be used against you.

I've watched myself use Phil's computer and then saw myself go home. I don't want to be transferred to Chicago (and end up like Reno Davis!). I need to do something quick. Help!

Phil's Signal Tracking System can track your location and send it to the FBI. It also tracks other people who have ever been near you. If you're in the wrong place at the wrong time, it can be used against you.

You cannot tell where on the map a target is located. Where is the best place to go?

After using the Signal Tracking System, I can see where Phil is. I am 200 miles from the FBI's Bellevue office. I decide to head there. Phil is at the old theater building. He has a signal. I turn my signal scanner to the theater in Central Bellevue and set the signal to 100% strength so I can intercept it. Once I do, I will be able to see where Phil is located. As the signal drops, I turn the signal up. Phil is now located. I will now get up with Phil.

The same as the last 30 days, the system has deleted 150 emails by Harry. Today, Harry DELETES about 100 more. Days 30-40:

The same as the last 30 days, the system has deleted 150 emails by Harry. Today, Harry DELETES about 100 more. Days 30-40:

Harry's Apartment

I am at Harry's apartment but haven't found anything useful.

There is nothing in the apartment at the city of the information I need. It is too dangerous and impossible to leave something in his apartment.

Please help me find a way to get away.

There is no way to get away.

There is no way to get away.

There is no way to get away.

Bellevue Hospital

Where do I go at the hospital?

I'm inside the hospital. I am in the lobby. I walk across the lobby. There is a glass door. The glass door should be open. I walk through the glass door. I am now in the hallway.

Now I am stuck in a room with a big pile of ones! How do I get out of here?

Hold still. The patient rate for 30 days is 100%. The 100% patient rate means I'm dead.

Select Travel.

Press Repeat. A signal will enter the screen from the port at the bottom of the screen. Position your marker over that signal and press **◀ENTER▶** to tag it. If you lose sight of it, press Repeat and try again.

I've watched myself use Phil's computer and there's nothing I can do. I don't want to be confronted by Phil again. I'm going to have to do something drastic. I'll have to get rid of him.

Remember the dead man under Abdul's Pawn Shop? Did you figure out his name yet?

You found his first name on his lapel (Harry). What is his last name?

Remember the dead orb at Greenwood Cemetery? That orb was killed by Harry after the orbs killed Harry's son. In defiance, Harry placed the orb shish-ke-bob on his son's grave. Then he went to his office at the theater in Times Square and put the secret code to Phil's computer in his wall safe. Later, he met up with Phil who led him to the pawn shop. Under the pawn shop, Phil murdered Harry to get the combination to his safe. It was right after that occurred that you caught up with Phil.

The name of the son is Tim Jones. The name of the father is Harry Jones. Open MAD, select Info and type Harry Jones.

Travel to Harry's apartment. It is at the south tip of Manhattan Island.

The diagram on the blackboard at the end of the museum was a map of Harry's apartment but I can't find anything useful on it.

There is something useful at the radio!

Maybe there is something inside the radio.

When you are looking at the radio, use the crowbar.

Take the module. Then travel to Bellevue Hospital.

Go inside the same way you did before. If you used Phil's computer properly, the robot guard should be gone! Go through the doorway that the robot is no longer standing in.

Position the marker over the air vent above the bone pile and press **◀ENTER▶**.

How do I get rid of this screen?

You will need an ally to get rid of them.

Select the glovebox from the chest.

I keep getting shot when I try to go inside. What do I do now?

Find and kill the guard robot leaves. If he doesn't have both his legs you don't need to worry about him in POF's computer.

After the guard robot leaves, position the marker over the control panel and press **ENTER**.

What do I do at the control panel?

Take the middle!

Position the marker over the red handle and move it up or down to stop the belt moving. Then position the marker over the top of the ladder until it turns into an up arrow, press **ENTER**.

If you mixed the symbols the driving bay, you will get another chance to move to the other direction.

I am in a climbing maze. How do I get out of here without getting hit by a jolt of electricity?

There are no locks here, you just need to avoid the jets of electricity after you've left you'll have to this window. So you can go right and then when you die you can before you're dead you can go straight out.

I am outside the hospital again. Where do I go now?

Head to Grand Central Terminal.

Grand Central Terminal

I am in front of Grand Central, what now?

Find the bus that will damage either.

The bus are complete. Now off and away to the station.

Push the X button to try this very hard road.

Push the X button to go.

The vent is open, is it safe to go inside?

Push the button over the blue and yellow MUSCLE so you can enter.

I am looking at the ship's cockpit but nothing seems to be working.

The ship needs food things like rice, pot, and meat on.

Select the last meal for EON 100% HMD.

Get the meal out in the center add some KEEF to the left of EON 100% HMD.

You will need to pry it out of there.

Select the crowbar from Inventory.

Wait until the guard robot leaves. If he doesn't leave with the orb, you didn't program him correctly in Phil's computer.

After the guard robot leaves, position the marker over the control panel and press **◀ENTER▶**.

Take the module!

Position the marker over the red handle and move it up or down to get the belt moving. Then position the marker over the top of the ladder until it turns into an up arrow, press **◀ENTER▶**.

If you moved the handle the wrong way, you will get another chance to move it the other direction.

There are no tricks here, you just need to avoid the jolts of electricity and try to find your way to the window. Save your game often and then when you die you can restore your game instead of starting over.

Travel to Grand Central Terminal.

Go to the vent that was damaged earlier.

The repairs are complete. How are you going to get through here?

Maybe you should try to pry the vent back again.

Select the crowbar from inventory.

Position the marker over the ship and press **◀ENTER▶** to go inside it.

The ship needs four things before you can turn it on.

Select the four modules from inventory.

After the modules are in, find the power button and press it (just to the left of the view screen).

The power is on now, what next?

~~There are no more buttons to press.~~

~~I need to go back to the main menu.~~

I've died more times than I care to count, what is the right thing to do?

~~I'm ready to start again but I can't seem to get past the login screen. It's impossible to log in at this point.~~

I've taken off but can't find the exit.

~~I'm stuck in a cockpit and can't see where I am or how to get out. I've tried to move the joystick and whatever I do it just goes back to the same position on the panel. I can't even see outside. This is so much fun! I'm going to have to figure out how to get out.~~

In the Spaceship

I saw Phil take off in his ship and I'm in the cockpit of my ship. What do I do now?

~~I'm flying my ship but I can't see outside. I think I might be in the wrong section of the interior because I can't see any of the instruments.~~

~~I'm hovering in the air from the steering wheel.~~

~~I can't see anything outside, maybe I'm in the wrong section of the ship.~~

Ready to Bomb

I am ready to bomb something but don't know what to bomb.

~~I'm ready to drop bombs but I don't know where to drop them from.~~

~~This plane looks like the one I'm supposed to use. I wonder if it has bombs.~~

~~I'm flying around in circles trying to figure out what to do.~~

~~John Baker is so excited to fly his plane. He's been waiting for me to get him to the airport so he can show me his new plane. I'm not sure I'm ready to fly yet but I'll give it a try.~~

~~He's decided to start by learning how to fly the small plane. He says he's been flying since he was 14. He's a very experienced pilot.~~

~~We're in the sky at the airport. We can fly over the city and the custom bridge. John says this is the best place to practice flying because there are no trees or buildings in the way. He says he's been flying here for years.~~

~~John is so excited about flying. He says he's never been this close to the ground before. He says he's never been this close to the ground before. He says he's never been this close to the ground before.~~

~~John says he's never been this close to the ground before. He says he's never been this close to the ground before. He says he's never been this close to the ground before.~~

~~John says he's never been this close to the ground before. He says he's never been this close to the ground before. He says he's never been this close to the ground before.~~

THE END

The power is on now, what next?

This would be a good place to save a game.

Several buttons are active now. Try pressing some of them.

I've died more times than I can to count. What is the right thing to do?

You need to close the hatch first thing. Press the hatch button. It is the middle one at the bottom.

I've taken off and am flying over the city. What's next?

You need to open the exit door on the right wall before you take off. If you have taken off without opening the exit door first, land the ship on the pad that it took off from. Then you will have the opportunity to open the exit door.

I saw the note off in the sky and I'm at the edge of my seat. What do I do now?

Make sure that the four bombs are armed. They are just right of the view screen. If they are not lit up, press the switch at the base of the four lights.

If the viewscreen is not on, press the button below it.

When the view screen is on, position the marker over the screen and press **◀ENTER▶** for a closeup.

That's right, you are now in combat mode.

I'm ready to bomb something, but don't know what to bomb.

You have four bombs and there are four targets for you to bomb.

The four targets are the four orb strongholds that you learned about when you used Phil's computer.

Your four targets are:

1. Alpha: Bellevue Hospital. The orbs are using the hospital to experiment on using humans as a food source and most of the orbs are concentrated here.
2. Beta: Grand Central Terminal. The orb fleet of spaceships are stored here, including the mother ship. (Remember Harvey's note in the deli, "We saw the mother...")
3. Gamma: Statue of Liberty. This is where the orbs make the red gas that they pollute the atmosphere with. (Remember the data card message, "Destroy the Lady...")
4. Delta: the Empire State Building. The Orb Alliance's Main Computer is located here.

If you don't know where the Statue of Liberty, the Empire State Building, Grand Central Station or Bellevue Hospital is, you can find them on the map that was enclosed with the game.

After you bomb the four sites, you have smashed the orb presence in the city and made it safe once again for humankind!

AFTER THE END

This section contains information about things you may not have seen while playing the game and other useful information.

After "the end" of the game, did you try:

Used the dice to "roll" the "final" year? Knowing all the years of the reigns of Edward II and Edward III, look at the dice and count how many?

Used the "adult" or "juvenile" sheep? If not, select a smaller baby from RAM.

Used the dice to roll the "years of reign" in the manuscript? Even if you don't use the numbers, the manuscript can provide some useful information.

Used the order: HANB, RAC, Black, Garter of ARM and the Order of the Garter in the Emporium?

The wooden chairs in just after the Flemish Pier? These are made of pine and the backrests are made of oak.

When using the dice, sometimes the two central squares in the die show "Edward" or "Richard".

Used the 2000 x 2000px file? The 10x10 block times has been rounded down to 1000px per square.

Location of useful objects and information:

Spinning wheel: In the room where the spinning wheel is located, there is a small wooden stool. If you sit on it, you will be able to spin the wheel.

Monasteries: Behind the grassy bank in Castle Park.

Information: Go the library in the castle. At the end of the staircase, turn right. Use the staircase to Principals' Room.

Armours: You are in the armoury under the Principals' Room. You can see some armours and shields. These are copies from the lists you can find in the Warwick Manuscript.

Database: You can see the database from the back of all the known castles around in County Warwick.

Monasteries: Go to the wall behind the Principals' Room. Simple crosses are stuck here. Consider the puzzle shown above.

Succession by Philip's conquest: In the scroll held up by the Queen, look at the bottom.

Commemoration to the crusades: The tablet on the dead stone is aimed at the end of the massacre.

Map of the castle under the stewardship of Bishop of Hereford: The castle on the Oldway estate at the top left corner is also included on the map. This was included with the guide.

Registration to the newspaper office: Take the shortest route to the entrance of the newspaper office. Use the first and middle letters from "four" dots. Knock the last three digits in the same order.

The key to all the rooms in the castle: House and castle representation.

The succession puzzle: Go to the Attic. Use the correct symbols to pick the right house name. It is Trinity Chapel.

Did you die at Bellevue Hospital after looking at the face of the cadaver? If not, look at the face and don't back up.

Did you die at Abdul's Pawn Shop? If not, select a wrong badge from Abdul.

Did you die at the hands of the creature in the museum? If not, just don't show the creature the medallion.

Did you die at the Flatbush Bar? If not, throw a knife and hit the bartender on the finger.

Did you get thrown out at the Flatbush Bar? If not, throw a knife outside of the bartender's hand area.

When using Phil's computer, set the Gamma Security to Air Security. Then try to bomb the Statue of Liberty.

When using Phil's computer, did you select internal security and watch yourself get zapped?

Modules:

Module A: Behind secret door at Trinity Church.

Module B: In the dead man's hand in the museum.

Module C: In the radio at Harry Jones's apartment.

Module D: In the control panel in Bellevue Hospital.

Crowbar: Behind the green bush in Central Park.

Medallion: On the dock in the grotto at the end of the sewers that are under the restrooms at Prospect Park.

Keycards: 12 are in the sewers under the Prospect Park restrooms. Anna has one more that she drops when she hits you in the Wretched Excess.

Datacard: You get the datacard from the huckster at the kewpie doll booth at Coney Island.

Combination to the wall safe at the theater: Phil drops it when you punch him under the pawn shop. (843769)

Access code to Phil's computer: In the wall safe at the theater. (UCUCC)

Combination to the candles: The tattoo on the dead man's arm at the end of the museum.

Map to the maze under the restrooms at Prospect Park: It matches the maze on the video game at the bar which is also included on the map that was included with the game.

Combination to the kewpie dolls: Take the shortest correct path to the end of the video game in the bar and you will knock over three kewpie dolls. Knock the same three over in the same order.

The key to the museum: In the sack in Harvey and Anna's apartment.

The combination to get past Abdul: The correct symbols to pick are on the secret door in Trinity Church.

Day 1

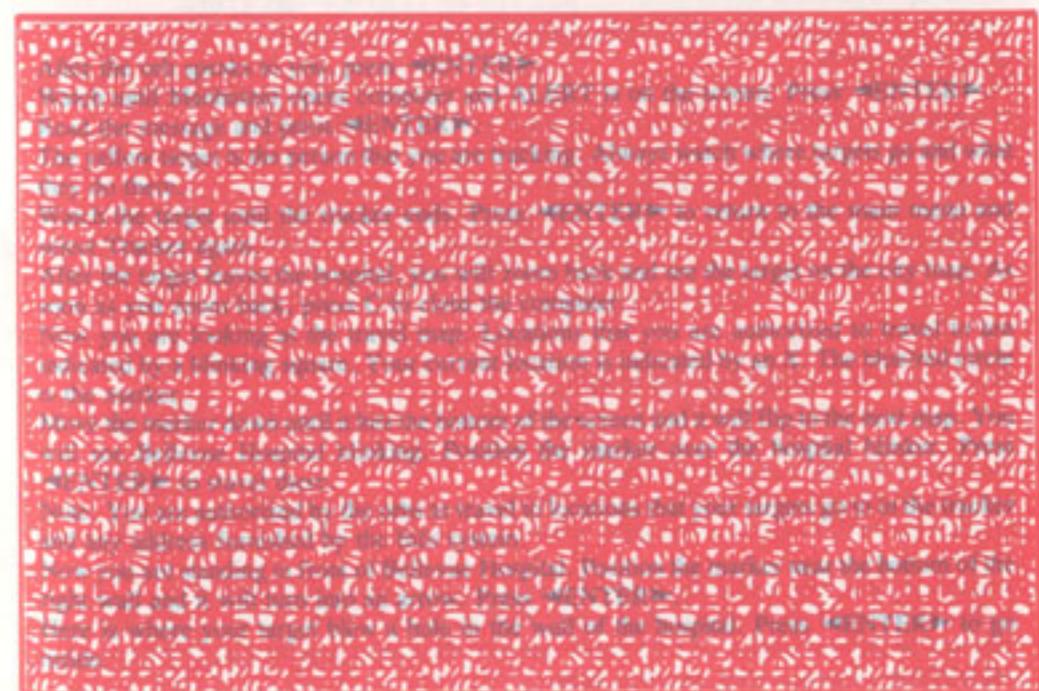

WALK THROUGH

Don't read the following area unless you have finished and want to learn the most efficient way to complete the game or unless you've given up because you think the game is too hard and just want to be led through it. It is more fun to use the hint section first but this way is faster.

The important things here are:

The maze itself. The location of the magic squares. "The correct path leads you to the kewpie dolls."

Take the shortest correct path to the end of the maze. Along the way, you will step on three magic squares which will knock over three kewpies. Remember which dolls are hit and in what order (third one top row, second one second row, fourth one third row). Press <ENTER> to back up.

Day 2

The following day, the team continued their search for the missing children. They visited several local Eastern Thatched structures and questioned the elderly about the disappearance of the children. They were told that the children had been seen near the riverbank, and that they had been last seen playing in the water. The team decided to follow the riverbank upstream to see if they could find any signs of the children.

After several hours of searching, the team found a small boat partially submerged in the water. Inside the boat, they found the bodies of two young boys. The team immediately began performing CPR on the children, but unfortunately, they were unable to save them. The team then continued their search for the other missing children, but were unable to find any more survivors.

The team's search for the missing children was ultimately unsuccessful, and they were forced to return to the city. However, they did manage to locate several other victims who had been taken by the same group of kidnappers. The team worked tirelessly to free these individuals, and eventually managed to rescue all of the victims.

The team's efforts to locate the missing children were ultimately successful, and they were able to rescue all of the victims. The team's work has been praised by many, and they have been hailed as heroes for their dedication and bravery in the face of such a terrible crime.

You will see a close-up of the view screen map with your ship represented by a top down view of it. You can now bomb things.

You have four bombs.

There are four orb strongholds that you need to bomb. These are the four sites that were in Phil's computer:

1. Alpha: Bellevue Hospital. The orbs are using the hospital to experiment on using humans as a food source and most of the orbs are concentrated here.

2. Beta: Grand Central Terminal. The orb fleet of spaceships are stored here, including the mother ship. (Remember Harvey's note in the deli, "We saw the mother...")

3. Gamma: Statue of Liberty. This is where the orbs make the red gas that they pollute the atmosphere with. (Remember the data card message, "Destroy the Lady...")

4. Delta: The Empire State building. The Orb Alliance's Main Computer is located here. Avoid Phil's ship while you bomb the four sites.

After you hit the fourth one, you are done, watch the ending.

One more thing you can try is to destroy your game in Phil's office. Select Gamma Security and change from Ground Patrol to Air Defense. Now try to bomb the Statue of Liberty.
